

Hi

Please drop whatever you are doing and take a look at this...

I've had scores of readers asking my opinion on a certain forex trading opportunity in the last few months, but I had to be completely happy before I could recommended it to you.

Well, that day has come and I urge you to take a few minutes to check it out.

First here's the link:

<http://snipurl.com/FoolproofForex>

It all started a couple of months ago when Louise Woof emailed. She claimed to have developed a forex trading strategy that anyone could use to make money.

'Yeah right, join the queue', I thought!

Over the years I've heard countless similar claims before

- usually from ex-City traders who thought they knew it all. Most of them turned out to be totally useless when it came to offering workable systems.

That's why I now have a very simple way of putting these claims to the test.

I suggested to Louise that we get some WRMM readers to test the strategy for a month and see what happens . . .

Well, the results turned out very positive indeed! The feedback I've seen is incredible - unsolicited emails flooding in from people who are successfully following the system and making money.

I have included some of the testimonials for the course at the end of my email. And yes, I can assure you these are real.

I have seen the originals and can vouch 100% they are genuine. You'll also find them on Louise's info page:

<http://snipurl.com/FoolproofForex>

Now, based upon the tester feedback and my own experience of publishing financial systems, I went back to Louise and made a few suggestions on how we could make the whole learning and trading experience that much more powerful.

The upshot is, Louise has now totally revamped the programme. She has rewritten the manual. She has also developed a unique trading calculator that makes the whole process of placing the trades faster and easier.

Plus, we made sure that you could get unlimited email support direct from Louise plus access to a 2hr teleseminar where you can ask questions and really get a feel for the strategy in action.

You know how much I love eletters and some of that has rubbed off on Louise and she is now including a free weekly email update that reviews the weeks trades (and

profits!) and gives plenty of tips and advice for the week ahead.

Despite adding all of these extra goodies onto the programme, the price of the course is still extremely good value - about one tenth of what you would have paid for The Insider Signal!

Check it out here and I am sure you will be very pleasantly surprised by what we have come up with:

<http://snipurl.com/FoolproofForex>

Does it work?

Yes, I am now 100% convinced that anyone with access to a PC and Internet connection during the day and early evening can make money. As Louise states in her letter, I think that you could reasonably expect to pocket around £100 - £300 per week tax-free very quickly, based upon

£1 a point. Obviously this figure increases as you stake more per point.

What about the risks?

I don't need to tell you that this is speculating and you should never trade with money you can't afford to lose.

However, the beauty of Louise's strategy is that every trade has a strict stop loss that means you cannot lose more than 10 points on any trade (that's the equivalent of £10 on a £1 per point stake). I have tracked the trades since January and by my calculations the winners outstrip the losers by 13 to 1!

In my opinion, Louise's strategy blows most others clean out of the water - not because it is more sophisticated or

complex. Quite the opposite! If you are new to trading forex, but maybe worried about the risks or having to learn technical jargon, this is perfect place to start.

Equally, if you have tried other systems but have been disappointed with the results or the fact they are too reliant on charts or software, this could restore your confidence (and profits!).

It is the most straightforward and easily understandable trading plan I've yet come across. You really can learn the entire strategy in a single sitting and be making your first trades within hours.

And yes, I trust Louise completely. She's down to earth, straight-talking and totally ethical. But, as ever, I'll go further and I will be personally underwriting the refund policy so you will NEVER have any problems on that count. By the way, the refund period is 30-days which is more than enough time to put the plan to the test.

So, please go take a look at the following link:

<http://snipurl.com/FoolproofForex>

It gives you full details of the strategy, Louise and what you can expect. There is also an email address for Louise if there are any questions and she will be happy to give you the answers.

I've got a very good feeling about this system - if the feedback I've seen continues there are going to be a lot of very happy WRMM readers!

Regards

Nick

P.S. Here are those testimonials I told you about . . .

'Once again thanks to your manual, I made another 14 pips on the 13:30 news today!' Wilson Williams

'I hope you were in the market today at 13.30 GMT. - I got 24 pips (at £1) which results in a total profit of £72 in my first 4 days of trading - AMAZING system.' Klaus Mortensen (Denmark)

'I purchased your system 2 weeks ago, I have to say its brill. I have set up a demo account and made £1,160 so far and a couple of hundred on my live account (small tester trades) but the more I do the more I understand the system of trading in general it seems so clear and I am really enjoying myself.' Robert Legge

'Hi Louise,

I had a really good week last week. I made nearly £200.

As you know I purchased your manual about 6 weeks ago and have made profits but last week was the best week for me. I think I have finally got used to your strategy. Over the past few years I have purchased a lot of work at home manuals from the internet and none of them have worked. Your manual is the best, it is straightforward and you keep things simple. I am just so glad I have found something that will bring me a weekly income.'

Sobia Bi

'Like many others, I have started making some serious money with it, so thank you very, very much.'

Bill P.

'. . . having dipped my toe in the water, most of the fears I had have evaporated, and I am now officially off the business opportunity market. I waited long enough, but I have now found what I have been looking for. Thank you again.

Steve Lloyd.

'Ok Lou, by the way I made £51 from a £1 stake this morning, 9.30, I could have made £72 but inexperience led me to bail out early.

I'm absolutely ecstatic at that right now, and not just for the reason that my future looks brighter than it has ever done. The truth be told, I don't place that much emphasis on money over and above what you need never to have to fret about it. However knowing that I can teach this to my girls, subsequently ensuring that they will never struggle financially is a priceless gift. I have wasted a lot of money on mostly worthless biz opps over the years, and I thought long and hard about investing in this. In the end my instincts overrode my not insubstantial scepticism, and helped me go with my naturally optimistic view that there must be something out there that works, and more importantly will work for me, and thank heavens they did.' Steve Lloyd

'I made 46 pips in about 12 minutes which is about three times what I normally make in a week! However, I was slightly disappointed with myself for losing my nerve and closing the trade [early] . . . and missing out on a further 50+ pips profit!' Gary Bunting.

<http://snipurl.com/FoolproofForex>

'Many thanks for the manual. I have been reading and re-reading it. I can certainly see the potential. Bit the bullet today - keen to get going - started with a bank of £200 - £1 a pip as suggested - and made £15!!'
