
URGENT ANNOUNCEMENT!

You have just 7 days to get in on the biggest trading opportunity of the decade!

PLEASE READ IMMEDIATELY

Hi

We've all seen the long queues of worried customer trying to withdraw their savings from Northern Rock. But did you know that this crisis is also providing some insiders with a massive money-making opportunity?

Here's why . . .

The US Federal Reserve recently dropped interest rates by half a percent to stem the financial aftershocks caused by the American mortgage crisis. And this is creating a massive trading opportunity between now and Christmas.

You see, with cheaper money flooding in, some analysts are predicting markets trading back to all-time highs, the dollar will continue to hit multi-year lows and crude oil smash through an historic \$90.00 per barrel high!

All this means that you could get into some of the most profitable trades of the last 10 years!

And that's why we have decided to open the doors of The Don't Tell The Professionals (DTTP) trading course to new students for one week only.

Please take a look, for full details [click here](#)

But hurry, the doors will close again at midnight on Sunday 14th October.

As you might recall, back in July The Don't Tell The Professionals trading course was so popular we closed the doors to new students to make sure we could give the high level of support. We didn't plan on reopening the doors until 2008. However, global events have overtaken us and we have now drafted in extra support to make sure that no one misses out.

As you are a valued reader I wanted to give you this chance to get in and profit. Don't Tell The Professionals is a proven training programme designed to show you how to successfully track, trade and profit from the big money deals in the FTSE 100 and just about every other financial market in just 20 minutes a day.

The brains behind the strategy is Keith Cotterill. I've known Keith for over 10 years and trust him completely. He's a great guy, down to earth and passionate about helping others to trade successfully. We first worked together back in the late 1990's on the original version of this strategy.

I can't imagine a better time to get trading!

You know me by now. I would never put my name to something that I didn't think was first class. Keith's strategy has been proven in the real world over 10 years by hundreds of novice traders. Here are just a few glowing testimonials from recent students:

'I've made a profit of over £5k in my first 3 months of trading . . . (s)ome of the highlights so far have been an £829 profit in Compass plc and an £893 profit in Imperial Tobacco. My only regret is that I didn't buy the course sooner.'
Simon Kenyon

'Got in to BT on the pull back... £10,000 up could go to 3.13 before we see some profit taking with medium term price target of £3.30 - happy

days!' Gary Rhead, UK

' . . . I am currently looking at a 138% profit on my original 'investment'... I am certain this system will pay for itself very quickly, far quicker than I originally anticipated. DTTP is just what I've been looking for, Educational, interesting, enjoyable and profitable - a great combination. Many thanks Keith.' MT, UK

'Well last week I had an excellent week using this system. 5 trades completed . . . SHP gained a net 81 points, AAL gained 51, LMI gained 198, NXT gained 105, SBRY gained 22. A total of 457 points!' Lee Wells

Make sure you check out the full details now. This opportunity WILL close next Sunday!

What sets DTTP apart from all other strategies I've ever come across is that it tracks what the big money professionals are really doing in the markets. You don't have to rely on fancy charts or complex calculations. And it isn't day trading, so you can go about your normal day and spend as little as 20 minutes each evening looking out for major trading opportunities.

If you decide to become one of Keith's students (and you'd be mad not to), he'll take you through every step and give you all the tools you need. Most important we felt that one-to-one support was the key to your success, so we've made sure that you get unlimited email and telephone support from Keith and his team as part of the package.

But there is one drawback. We are only opening the doors for 7 days. They will close again to new students at midnight on Sunday 14th October 2007. We will NOT be opening them again until next year. So please at least check out what's on offer right now to avoid disappointment.

<http://www.on2url.com/app/adtrack.asp?MerchantID=104461&AdID=341283>

And to make this even easier, I've made sure you are covered by an unconditional 45 day 100% risk free money back guarantee. You can put the strategy to the test for yourself and see if it works for you. In my opinion 45 days is more

than enough time to learn the strategy AND apply it to the markets. And with the way things are going, you could be making profitable trades almost immediately!

But if it isn't for you - for whatever reason - no problem! You can send it back for a full refund of your course fee. And as an extra safety net, I am underwriting this guarantee myself.

Please take a look [here](#)

-
It explains his strategy in detail. But hurry, if you miss the deadline you'll have to wait until 2008!

With markets set to hit highs in the coming weeks, don't you owe it to yourself to try the risk free trial and see how you could be making money from this opportunity?

Best regards

Nick Laight

PS: Remember, the doors are only open until midnight on Sunday 14th October. After that they will close until 2008. To avoid missing out on these hugely exciting times to be a trader, please take a good look at Keith's invitation today
