

Hi

After my postal faux pas yesterday I got a lovely email from JohnFarrier . . .

He was very supportive and rather amused at the spot of bother I'd got myself into.

Far more important though is this: buried in his email was something so exciting to hear I had to share it with you.

John told me:

"I am having a great time with Keith and the Don't Tell The Professionals (DTTP). I have doubled my bank in just three weeks."

Wow! I probed him for more details and this is what he told me. Seriously, if you are having ANY reservations about trying out DTTP before it closes tomorrow, then please read closely - if this isn't inspirational, I don't know what is!

Here's what John said:

"I am 75 years old so learning your course is not just for the young . . . I really do find the whole experience very satisfying and I am totally absorbed. My wife Hazel got me into it having read one of your WRMM mags which had the DTTP blurb in it.

I said £2,300 is a lot to spend on what would essentially be my hobby but wise as ever she pointed out the six-week money back clause. She felt it would help to keep my brain active so that when she sends me down to the shop I won't come back having forgotten some things and added others which were not asked for!

As ever in our 54 years together she was right again because by the time the six weeks were up

I had already more than covered the course fee.

By your standards I am a very timid trader, I aim to get about £1000 a week and so far I have exceeded that using £10 stakes as per the advice from Keith, no more than 5% of your bank on any one trade."

No bad, eh! Now, if you want to see what has given John such an stimulating and rewarding 'hobby' then why not try out DTTP on a 45 day risk-free home trial basis?

Just go here to reserve your place:

But PLEASE don't put this to one side. The doors will close tomorrow night and won't reopen again until next year. We are only offering a limited number of places due to the unique market conditions that could be throwing up a lot of big trades in the coming months.

You know me by now. I would never put my name to something that I didn't think was first class.

Keith's strategy has been proven in the real world over 10 years by hundreds of novice traders. And John isn't a one-off. Here are more glowing testimonials from recent students:

'I've made a profit of over £5k in my first 3 months of trading . . . (s)ome of the highlights so far have been an £829 profit in Compass plc and an £893 profit in Imperial Tobacco. My only regret is that I didn't buy the course sooner.'

'Got in to BT on the pull back... £10,000 up could go to 3.13 before we see some profit taking with medium term price target of £3.30 - happy days!' GaryRhead, UK

'. . . I am currently looking at a 138% profit on my original 'investment'... I am certain this system will pay for itself very quickly, far quicker than I originally anticipated. DTTP is just what I've been looking for, Educational, interesting, enjoyable and

profitable - a great combination. Many thanks  
Keith.' MT, UK

Make sure you check out the full details now.  
This opportunity WILL close at midnight on  
Sunday!

And spare a thought for John. He's having a  
minor eye operation today.

Best wishes and speedy recovery John!

Regards

Nick
