
IMPORTANT ANNOUNCEMENT

Hi

No more teasing, it's finally arrived . . .

Louise Woof's Foolproof Earlybird Trading Strategy is now available.

Click here for full details:

<http://www.canonburypublishing.com/foolproofearlybird/>

Now you can have all the thrills and potential profits of Forex trading, but without any of the drawbacks.

I mean, if you're anything like me, you probably don't have the time or patience to be glued to a computer screen all day to catch every trade or news announcement.

And so Louise made it her mission to figure out an approach that allows anyone to trade successfully in as little as 10 minutes in the morning. As you know I am fully endorsing this new strategy - and when you see the results you'll know why - so please take a look:

<http://www.canonburypublishing.com/foolproofearlybird/>

I don't mind telling you that Louise was so secretive about the development of this new strategy, even I didn't get my hands on it until last month.

But despite the impressive track record, testimonials and the fact I've worked with Louise for more than year, I always want to see proof first hand.

So I decided to get someone I trust to try it out.

And that's why I asked my father to have a go. He's a self-confessed newbie and was understandably a little nervous about trading, so I gave him some money to trade with, set up an account and asked him to give it a try . . .

How did he get on? In his first 3 days he managed to bag 44 points clear profit. OK, so he was only staking £2 a point, but £88 from what was essentially 30 minutes 'work' can't be sniffed at!

The next week he bagged 175 points.

And the important thing is he's not stuck to the screen all day. In fact he doesn't even trade everyday (at this rate he won't have to!).

<http://www.canonburypublishing.com/foolproofearlybird/>

And this isn't a fluke - here are just a few more of the many testimonials from the lucky insiders who got their hands on the strategy:

** "Wow, I have just made £600 in 10 minutes!" Greg

** "[I] have turned £200 into over £5000 in my first 2 days of trading." Mike L.

** "In the 4 weeks since start up I have made just over £7,000" Ron

** "This week I have made £1,025!" Liz

** "£200 while making a cup of tea!" Anthony A

** "Thanks for a brilliant product, have just made £46.80 profit from a £1 stake." Charlotte R.

** "Just made 23.6 pips profit in 14 minutes. I'm over the moon." Bob D.

** "£530 profit in the first 2 days for 15 minutes of 'work'. S.M.

You'll find even more genuine testimonials and full details of the strategy here:

<http://www.canonburypublishing.com/foolproofearlybird/>

And there's more good news . . .

After some hard bargaining, I have persuaded Louise to make a discount off the regular price, exclusively to my readers and only for a limited time. Very soon we will be promoting Earlybird to others at the regular price of £347. However I have managed to squeeze a £50 discount from Louise so you can get your hands on her new strategy for just £297.

What's more you are covered by a full unconditional 30-day money back guarantee (underwritten by me), so you can try it out to see if it is for you.

<http://www.canonburypublishing.com/foolproofearlybird/>

What about the risks?

I want to be totally upfront with you here. This is financial speculation and of course involves risks. Therefore you should never trade with money you can't afford to lose.

Even though the strategy currently has an 80% strike rate, around 1 in 5 trades will lose. However, the beauty of Louise's strategy is that every trade has a strict stop loss that means you cannot lose more than 15 points on any trade (that's the equivalent of £15 on a £1 per point stake).

How can something this simple make so much money?

Seriously, you'll laugh when you see just how easy this strategy is! In my opinion, Louise's strategy blows most others clean out of the water - not because it is more sophisticated or complex.

Quite the opposite!

If you are new to trading, but worried about the risks or having to learn technical jargon, this is perfect place to start.

Equally, if you have tried other systems but have been disappointed with the results or the fact they are too reliant on charts or complicated technical jargon, this could restore your confidence (and profits!).

It is the most straightforward and easily

understandable trading plan I've yet come across (even simpler than Louise's Foolproof Forex!). You really can learn the entire strategy in a single sitting and be making your first trades within hours.

And yes, I trust Louise. She's straight-talking and totally ethical. But, as ever, I'll go further and I will be personally underwriting the refund policy so you will NEVER have any problems on that count. By the way, the refund period is 30-days which is more than enough time to put the plan to the test.

So, please go take a look at the following link:

<http://www.canonburypublishing.com/foolproofearlybird/>

It gives you full details of the strategy, Louise and what you can expect. There is also an email address for Louise if there are any questions and she will be happy to give you the answers.

I've got a very good feeling about this system - if the feedback I've seen continues there are going to be a lot of very happy WRMM readers!

Regards

Nick

PS: Remember, you can get your hands on Foolproof Earlybird at a special discount, but please hurry. Louise feels that we are undervaluing the strategy and WILL put the price up.

And if you still need convincing, here are a few more testimonials

"In the first week I made over £400." M. A.

"I've made £100 today, superb!!!" P.D.

"I've only been going a week and have already recouped the cost and a couple of hundred pounds of profit!" Paul J.

"[I] just made £38 from my first trade! wow all happened in about 10 seconds." Lynne I.

Just made £100 walking around Red Square in China. D.M.

"I started with a £500 bank and already it is on its way to 4 figures." N.D.

"In two days . . . I have made £1,250" Gary W
