
What Really Makes Money:
Special Review

Hi there

As you know, I rarely put my name to a horse betting service, but today I'm making an exception . . .

As a self-confessed gambling dunce, I steer clear of anything where the odds are stacked against me.

But what you are about to read is about as close to a sure thing as I've come across.

I've checked and double-checked the figures and they are rock solid.

Here's what I found . . .

Since 1st January 2007, a £1,200 starting bank would have grown to £9,155 by end of December the same year.

And here's where it gets really exciting:

If you'd started with the same bank in January 2006 you'd now be sitting on a whopping £30,678!

And since the beginning of 2005, that bank would now stand at £48,145!

What's the secret?

Well, rather than attempting to hit those big priced horses, this selection system aims to make . . . just 1% profit per day.

One percent! Doesn't sound like much - but when you start compounding your returns day after day things get very interesting - I mean where else could you turn £1,200 into close to FIFTY GRAND in 36 months.

No wonder Einstein called compounding the '8th Wonder of The World'!

If you have the slightest interest in betting or simply want to find a genuine and proven way to compound your bank day by day, then please read my full report.

You'll also find the full track record going back 3 years which I have personally (and painstakingly) verified.

OK, I know this comes hot on the heels of me recommending a couple of great financial trading strategies (Don't Tell The Pros and Earlybird), but this is a little different - but with just as much upside potential.

What's more as long as you have around 15 minutes at around 10am each morning and access to the internet, you can use this.

And yes, ordinary people ARE making money from following this system's selections. Take a look at what they have to say . . .

"A year ago, using mainly my profits I bought a boat, 25ft cabin cruiser... It really is a dream-come-true." - Chris Roberts

"Well I must say that this system really is the mutt's nuts! I've been paper trading this system now for a month, and can't believe the results. Fantastic. A baby could do it." - Gary Tongue

"My bank is building steadily and I think by Christmas I will be achieving the 100 per day target. It's absolutely fantastic. The Ferrari is about a year away and is no longer a dream thanks to you." - Mr. P. W., Bradford

"...the instructions are clear, the

calculator is a superb piece of work, I find the whole operation an absolute pleasure and I think we will be together for a very long time. I find it a comfort that should I have a query, you are always prompt and courteous, which I appreciate."

- Mr. D.N., Gosport

"I can't thank you enough for the improvements in my lifestyle Pegasus has given me..." -- Mr. D.R., Leicester

"Yours is the best system I have ever used and believe me I have used plenty. If you have any more in your "stable" I would be interested. Not that you actually need another system." - David Smith

Let me be clear. This is not pie-in-the-sky 'we'll make you £20,000 per month GUARANTEED'.

It's highly achievable, intelligently thought out and most of all REALISTIC way of building your bank.

Yes, the profits are small to begin with, but keep your eye on the long term and you could be laughing!

What's the secret to the strategy? I wish I knew!

The guy behind the service is John Hamer and he is keeping his selection process under wraps. I don't blame him. If he can supply consistent profits as he has done for the past 3 years, then I would too!

Here's how you use his system:

You can operate the system every day - all you need is access to the Internet and about 15 minutes of your time. As a member, you get a unique login and password.

After 10:30 am every day, you log into the member's area where you can access the selected races of the day which have been pre-determined by John's selection

criteria.

Then simply follow the instructions to place your stakes. You decide how much profit you want to make, key this figure into the online bet calculator and this will calculate the stakes required to achieve your desired profit level.

I think it is worth pointing out that it's not compulsory to start with £1,200, but any fraction of that figure would lead to a corresponding, proportional decrease in profits. Likewise, any higher figure than £1,200 brings a proportionally greater return!

"Come on Nick, what about the negatives?"

To be honest, there aren't any that would put me off.

Over 3 years this system has delivered a consistent 70% strike rate. OK, so you need a reasonable size bank to start, unless you are extremely patient!

You'll also need to be able to access the live betting market (most of the time only once per day) for about 5-10 minutes, but occasionally 2 or 3 and 5-minute slots throughout the afternoon.

Also it's important to point out that you must have PATIENCE. You won't be making large profits day on day to begin with. As you can see, this is a long-term game.

Bottom Line: If you have the patience (and good sense) to use compounding coupled with a proven selection service like this one in your betting, then this is for you.

Highly recommended!

PS: Take a look at more of those

testimonials:

'Since last writing to you, my bank is standing just short of £4,000 from the original £500 7 weeks ago and is forecast to surpass that in the next couple of days. Keep up the good work!' Mr. D.T., Grantham

'...it's a good feeling to make your target in 10-20 mins, then turn off the computer knowing you have made what some people earn in 8 hours.'
Mr. L. C., Middlesbrough

'I made £25 in my first day - amazing - I'll be a member for a long time. Day two - covered my first month's subscription already. You should have confidence in this system - it really works'
Mr. T.R., Didcot

'I was sceptical at first, but I quickly realised the potential of this amazing system. I started small, making about £20 per day in the first 2 weeks, but now I have built my betting bank to a level that has enabled me to achieve £100 per day! Thank you once again.'
Mr. J.C., Hull

'...now making more in a few minutes every day than I do for 40 hours a week in my job as an office manager...'
Mr. S.B., London

'[I]cannot believe how simple it is to make money. I am extremely sceptical by nature but was recommended to your club by a good friend whom I trust implicitly. I owe him big time!!'
