
URGENT ANNOUNCEMENT!

Hi

"Ok, I give in, I give in!"

I've had dozens of readers jamming up our phone lines and my inbox this morning demanding to know what time I would be releasing info on the new Forex system I've been teasing you about.

Well, now you can check it out in all its glory [here](#)

I've been involved with the development of The Ultimate FX Predictor from the beginning and this is something really special!

We have now completed the extensive beta testing and the results are better than I could have hoped for! Let me give you a quick update:

- After one week Terry Hodgkinson had made £1,455 and now stands at £1,950 pure profit using no more than £5 per pip stakes.
- Ultra conservative Anthony Wright could only trade first thing in the morning before taking his son to school, but managed to bag 228 pips from 27 trades - with £5 stakes that's £1,140!
- Mike sums it up perfectly: "The biggest enjoyment comes from its profitability - averaging 30 points a day so far (after 7 days trading) with relatively little risk and taking up only 3 hours of my day - perfect!"
- And yes, my resident guinea pig (er, my father) is also on the case. He emailed to say he has grabbed another 25 pips this morning!

Now I am just desperate to unleash this to WRMM

readers and hear about YOUR successful trades. I know this is going to generate so many wonderful stories!

You see, this simple 'click and profit' system lets you dip into the Forex market . . . over breakfast, at lunchtime . . . AND in the evening to grab 10, 20, 30 even 40 pips or more each day!

There's no complex charts . . . no fancy jargon. Just a simple red or green dot will show you when to get in and out for a profit.

Now rather than waste time telling you all the great benefits of this new system, I urge you to click on the link below and read a report that tells you everything you need to know:

You also have a full 30-day risk free home trial to try it out -fully underwritten by me as co-publisher. As you could be trading within 24hrs of receiving UFXP, this gives you plenty of time to put it to the test and see how much you make! Only then do you have to decide if it is for you or not.

I won't delay any longer, as I'm sure you're keen to find out what all the fuss is about! Check out full details [here](#)

I can't wait to hear about your first successful trades using this new software!

Best regards

Nick

PS: And do feel free to email me if you have ANY queries at all about the system.
